

Petroleum Equipment Distributors,

- You now have a new source for fueling site equipment!

ICS Has developed new products to make installation of fueling electronics easier and more reliable. For more information on any of these products, please visit the website at www.intconsys.com, or give us a call!

PA1 Pulse Analyzer

- A specialized tool for troubleshooting fueling site equipment.
- Checks the output of any pulser either in-circuit or stand alone.
- Generates pulses for testing consoles or fuel management systems.
- List Price - \$249.95 (P/N PA1-A)

SS1 Surge Suppressor

- A serious suppressor and power line filter for petroleum equipment!
- The SS1 is designed specifically to protect fueling site equipment.
- Pass-through filtering is more effective than simple parallel devices.
- List Price - \$149.95 (P/N SS1-110-A)

ES1 Emergency Pump Stop Switch

- Required by electrical code - (NFPA 30a, CH4, Section 4-1.2)
- Heavy Duty NEMA-4X, weather sealed, aluminum enclosure.
- Single and Double pole models available.
- List Price - \$139.95 (P/N ES1-SP)

CSR1 Current Sensing Relay

- Solves the problem of an in-use signal with sealed switch motors.
- Wired in series with pump motor, switches output on at ½ Amp.
- List Price - \$124.95 (P/N CSR1)

RC1 Noise Suppressor

- Eliminate power line noise generated by inductive loads!
- Put one RC1 across the power terminals of each suction motor, solenoid valve, and motor contactor coil at the fueling site.
- List Price - \$19.95 (P/N RC1)

At ICS, we take pride in quality products and personal customer service. If you have any questions about a product, please don't hesitate to give us a call.
