## Last Updated 12/9/20

This list has been compiled with information and photos from customers in the field, tech support calls, manufacturers online documentation, etc... These references may not be 100% accurate as manufacturers change their products over time and may not publish these changes in a timely manner.

Items in red indicate there is no ICS pulser available for this unit. Items in green are units which work with the listed ICS pulser, and units in violet are units likely to work with an ICS pulser, but it is up to the customer to confirm.
